Basarab Nicolescu  
March 2012

Dear Basarab,

I send you my congratulations with your anniversary and very best wishes!  
Mnogaya i blagaya leta!

Your are certainly one of the brightest Orthodox theologians and scientists I know. Your academic and organisational work in the field of science and theology dialogue and interdisciplinary studies is amazing. It is source of inspiration for many – in Romania and worldwide – and it is always great pleasure to cooperate with you. You are a great character! It helps you to overcome serious difficulties and also encourages others to look over problems when it looks that they block the way forward. And you are a very nice person – great pleasure to be around with!

I very much look forward for our future meetings and collaboration.

With warmest best wishes,

Alexei Bodrov  
Rector
